

# TremLock® 7.2

## Exposed Fastener Panel

### FEATURES

Versatile

Strong

### BENEFITS

- Can be a roof or wall panel
- Vertical or horizontal installation
- Panel profile provides great span strength

### DESCRIPTION

TremLock 7.2 roof & wall panel systems are factory roll formed 22 & 24 gauge material. Galvalume® steel, zinc coated by hot-dip process per ASTM A792/A792M. The Galvalume panel is coated with Kynar 500®/Hylar 5000®. Refer to color chart for available colors.

### BASIC USES

TremLock 7.2 panel is an exposed roof and wall panel. TremLock 7.2 panel can be used as an exterior wall cover or roof panel, on slopes down to 1:12, equipment screens and parapet wall applications. A variety of fastener options are available to meet the needs of appearance and different substrate attachment.

### SYSTEM DESIGN

TremLock 7.2 panels are designed with coverage of 36" and up to 40' in length. The TremLock 7.2 panel is 1½" high with a 7.2" rib for optimum strength and spanning capabilities. Please refer to the installation manual for section properties and load tables.

### FINISH/COLOR

Acrylic Coated Galvalume (Galvalume is a registered trademark)  
 Fluoropolymer (Kynar 500 PVDF Resin-based) (Kynar 500 is a registered trademark)  
 Siliconized Polyester and Polyester  
 Oil canning is inherent in all metal panels and not cause for panel rejection.

### APPLICATION

TremLock 7.2 panels are installed over solid substrate or spanning members (hat channels). All exposed fasteners shall be prepainted to match roof or wall panel colors. All side laps shall be at least one full corrugation. Panels are sealed at the base of wall with metal closures. Tape sealant required on seam (side laps).

### SECTION PROPERTIES & PROFILES

## PHYSICAL PROPERTIES

| TITLE OF TEST            | TEST METHOD  |
|--------------------------|--|
| Uplift                   | UL 580 Class 90, ASTM E1592                        |
| Air & Water Infiltration | E1646 and E1680                                    |
| Impact Resistance        | UL 2218 Class 4                                    |
| ICC-ES Approval          | ESR-5896 on 24 GA.                                 |
| Fire Resistance          | UL 263 & UL 790 Class A                            |
| Florida State Approval   | FL 1832.8 (non-structural), FL 1747.6 (structural) |
| Miami Dade Approval      |  |

*Testing and Approvals are product specific. Please inquire for details.*

## MAINTENANCE

Your local Tremco Roofing sales representative can provide you with effective maintenance procedures which may vary, depending upon specific conditions. Periodic inspections, early repairs and preventative maintenance are all part of a sound roof program.

## PRECAUTIONS

Users must read container labels and Safety Data Sheets for health and safety precautions prior to use.

## TECHNICAL SUPPORT

Your local Tremco Roofing sales representative, working with the Technical Service Staff, can help analyze conditions and needs to develop recommendations for special applications.
