

TremPly® TPO Drain

An Accessory Designed for TremPly TPO Single Ply Roof System

FEATURES

- Cost effective
- Factory-built accessories
- Uniform look

BENEFITS

- Reduces installed costs by up to 25%
- Improved reliability, reduces risk of leaks and callbacks
- Improved aesthetics

DESCRIPTION

TremPly® TPO single ply roofing system preflashed accessories provide roofing contractors an easy-to-install, factory-built detail. TremPly preflashed accessories are constructed using Tremco's proven, durable TremPly TPO single-ply detailing membrane.

BASIC USES

Recommended Uses: Whole-sized drains (2", 3", 4", 5" or 6"), can be used on new construction and directly attached to new plumbing with a flexible coupling (not included). Half-inch-sized drains (1 1/2", 2 1/2", 3 1/2", 4 1/2", and 5 1/2") can be used as retrofit drains by ordering a drain sized 1/2" smaller than the drain pipe being fitted (for a 4" drain pipe, use a 3 1/2" drain).

TremPly Preflashed TPO Drains are constructed from spun aluminum and preflashed using TremPly 55 mil detailing membrane. Installation requires no special tools. The wide range of sizes allows for proper fit into any size roofing drain. All hardware, including strainer and gravel guard, are included with drains as is EMSEAL watertight expanding seal for retrofit drains, making plumbing tie-in quick and easy.

APPLICATION

TremPly TPO preflashed accessories are designed for use with TremPly TPO single ply membranes. The preflashed accessories may be installed on mechanically attached, fully adhered, or self adhered TremPly TPO roofing systems using conventional techniques. See published application and specifications manual for detailed instructions.

TremPly® TPO Drain

MAINTENANCE:

Your local Tremco Roofing representative can provide you with effective maintenance procedures, which may vary depending upon specific conditions. Periodic inspections, early repairs and preventive maintenance are all part of a sound roof program.

TECHNICAL SUPPORT

Your local Tremco Representative, working with the Technical Service Staff, can help analyze conditions and needs to develop recommendations for special applications. The services of the Tremco Research Center, which has earned a unique reputation in weatherproofing technology, complement and extend the service of the Tremco Service Staff.
