DESCRIPTION

TremPly TPO single-ply roofing system accessories provide roofing contractors an easy-to-install factory-built detail. TremPly accessories are manufactured using a proprietary formulation designed for use with TremPly TPO single-ply membranes.

BASIC USES

TremPly TPO T-Joint Cover Patches create a membrane seal over T-joints that arise when installing a 60 or 80 mil TremPly TPO system. They are created from a proprietary TPO formulation engineered to work with TremPly TPO single ply membranes and designed for ease of welding over T-joints formed when installing an TremPly TPO system. TremPly T-Joint Cover Patches are formed using unreinforced membrane to a nominal 55 mil thickness.

PACKAGING

4" x 4" Circle (102 mm x 102 mm). Membrane thickness .055" (1.40 mm). 100 Patches per carton. Weight, 3.3 lb. (1.5 kg) per carton; 196 Cartons per pallet.

APPLICATION

TremPly TPO accessories are designed for use with TremPly TPO single ply membranes. The accessories may be installed on mechanically attached, fully adhered, or self adhered TremPly TPO roofing systems using conventional techniques. See published application and specifications manual for detailed instructions.
